

HOANG VO

Profile

Full-stack developer with nearly 3 years of experience building scalable, secure, and high-performance web applications. Skilled in writing clean, maintainable code and using modern frameworks to deliver solutions aligned with business and user needs. Continuously learning and adapting to emerging technologies, with interests in web development, game development, and AI.

Education

BACHELOR OF COMPUTER SCIENCE
Concordia University, Montréal QC
September 2018 — December 2022

Employment History

FULL-STACK DEVELOPER (Contract) at Centre for the Study of Learning and Performance, Montréal QC
March 2023 — September 2025

- Deployed and maintained responsive web applications using PHP, Laravel, MySQL, HTML, CSS, JavaScript, and Vue.js.
- Participated in the full software development cycle, including planning, development, testing, and deployment.
- Fixed reported bugs and implemented new features in collaboration with cross-functional teams.
- Uploaded test builds to the development (DEV) server via SSH for QA testing of bug fixes and new features.
- Collaborated in peer code reviews, providing feedback that improved code efficiency and maintainability.
- Communicated weekly progress and blockers to the Lead Developer, ensuring clear visibility of ongoing tasks.

Key Abilities

- Able to install and configure the latest PHP and MySQL environments locally using tools like MAMP and Homebrew for seamless backend development and debugging.
- Detail-oriented and analytical, with the ability to troubleshoot issues efficiently and deliver clean, maintainable code.
- Strong multitasking and problem-solving skills, with a proactive approach to identifying and resolving development challenges.
- Works effectively both independently and as part of a team, contributing to project goals and continuous improvement.
